## DiXell / XWEB-EVO Certified Training

September 13th & 14th, 2017 Holtsville, NY

- Holtsville, NY

Weiss Instruments announces a Fall '17 Dixell / XWEB-EVO Training Workshop at Weiss Instruments, 905 Waverly Ave., Holtsville, NY 11742. The EVO is a totally new HMI and now can be viewed on your iPad and tablets.

The Seminar is open to installers, refrigeration contractors, OEMs ARWs and others interested in learning how to install and set-up XWEB Monitoring and Control Systems. Application and Distributed Control concepts will be covered as well as in-depth training on the major components of the XWEB System.

DIXELL MONITORING & CONTROL APPLICATIONS VIA THE INTERNET

**XWEB500D-EVO:**

“ The Best feature of the XWEB500 System is it’s modular nature” says Steve Weiss, VP Sales & Mktg. of Weiss Instruments, Inc. “You can start small with monitoring only and expand to include control of lights and HVAC with our Programmable Thermostat. Our new Walk-in Control with On-Demand® Defrost offers energy savings and performance . This system is great for small to medium Food Service applications where HACCP and Energy Savings are a key to this system.” The EVO now brings XWEB to your iPad. Our experience with Food Service OEM’s now gives operators solutions to manage FOOD SAFETY AND ENERGY SAVINGS.

**APPLICATIONS FOR FOOD SAFETY AND ENERGY SAVING:**

- SCHOOLS**
- FOOD WAREHOUSES**
- INSTITUTIONAL FOOD SERVICE**
- C-STORES**
- HOTEL KITCHENS**
- FOOD PROCESS**
- RESTAURANTS**
